**WILL ASK CHANGE
OF COASTWISE LAW**CHAMBER OF COMMERCE ASKS
CONGRESS FOR RELIEF—RE-
PORT FROM CONFERENCE.

The most important matter taken up by the Chamber of Commerce at its monthly meeting held yesterday afternoon, was that concerning the coastwise laws as they apply to the Territory. At the conclusion of a general debate, a motion was made by E. Tenney Peck, and adopted, referring the subject to the Chamber's committee on Harbors, Shipping and Transportation to consider in detail and report on the advisability of memorializing Congress to grant relief from the burden which the law places upon the islands.

The subject was brought up by Vice President J. F. Morgan, who occupied the chair in the absence of the president, W. M. Giffard. He stated that the matter was one which he believed the Chamber of Commerce should take some action upon, and at least place itself on record. He believed that the progress of the Territory is being seriously retarded by the application of the law which prevents passengers or freight being carried between here and the mainland in anything except American vessels, and thought that the law should be amended in some way to favor the Territory at least for a period of years. Not only are our own people inconvenienced by the law, Mr. Morgan pointed out, but it tends to prevent tourists coming here, for the reason that they are unable to plan definitely their time of getting away.

E. Tenney Peck stated that the people are practically at the mercy of the Pacific Mail Steamship Company, and that instead of employing American labor, as the law contemplates, American vessels shall do, foreign crews are engaged to man the different ships.

E. D. Tenney felt sure that practically all of the members of the visiting Congressional party favor modifying the law as far as the Territory of Hawaii is concerned at least, and thought that the Chamber of Commerce should not hesitate to express its views on the subject.

A report was read from W. R. Castle, Jr., who represented the Chamber of Commerce at the recent meeting of the Lake Mohonk (New York) Conference on International Arbitration. Extracts of letters were also read from a number of persons telling of the good impression which Mr. Castle's address before the conference had made. Mr. Castle in his report, stated that without and specific instructions he had advocated in his talk a number of things which effect Hawaii deeply. Regarding these the following may be quoted:

"Perhaps I exceeded my authority in strongly urging two measures as considered important by people in Honolulu—measures which I myself think both important and practicable. They were that The Hague Conference be urged to declare the inviolability of private property, in contraband, in time of war, and the neutralization of ocean trade route. It seemed to me that both of these were, from our point of view, exceedingly important, and I was very glad that the conference adopted them.

"I must also admit that I actually went against the resolutions of the Chamber in voting against having anything in the Mohonk platform about limitation of armament. The platform urged that The Hague adopt certain things, not that they discuss them. I felt that discussion of this question would be valuable, but knew that the practical difficulties in the way of such limitation would make it impossible at the present time, and thought we should urge only those things which were practicable. It is a thing which will naturally follow but which cannot precede the adoption of a general arbitration treaty. I am telling you just what I did, that you may censure me if you wish. I am sure, however, that, had you been present, you would have done the same on this question. Hon. Andrew D. White told Mr. Smiley that my speech gave him several new ideas about the islands, and a great many men came up to talk with me on the subject."

Mr. Castle also suggested that the Chamber of Commerce offer a prize of fifty dollars for the best essay on international arbitration to be competed for by the pupils of the public schools of the Territory. He believed that by educating the children among such lines, the ideas of peace instead of war will be best promulgated, and bring the most far reaching results.

The Chamber of Commerce unanimously voted to continue the salary of George B. McEllen, secretary to Delegate Kalaniana'ole, to represent the Chamber in Washington.

In order to stir up interest in the work of the body, both among its members and among the general public, it was decided that a number of prominent business and professional men shall be invited to address the Chamber from time to time on subjects of especial interest to the Territory. It is hoped to have some ar-

**UP AGAINST
IT FOR BOOZE**CLUBS MAY HAVE TO REVERT TO
OLD LOCKER SYSTEM—COM-
MISSION AWAITING OPINION.

There was a brief session of the liquor license commission yesterday. But as the Attorney General had not rendered his opinion relative to right of the commission to enact further regulations for the conduct of licensed places, nothing was accomplished. The Attorney General seems inclined to the belief that the clubs will have to revert to the locker system, as the only solution.

In this connection Attorney General Peters is quoted as saying: "To meet all the requirements of a club, with the licenses as limited by the law and proposed by the Board, it would require a saloon license if there is to be a bar, a restaurant license, and a hotel license, and then the extra \$250 license to sell after hours and on Sundays. But under the proposed regulation of the Board a saloon license and a restaurant license will not be granted for one place. Under the law a hotel and restaurant license cannot be granted for the same place. If a hotel license is taken out there can be no bar. And if a restaurant license is taken out the club can have no rooms for members."
